Water and Wastewater Systems Sector

17. *April 17, Associated Press* – (Wisconsin) **Milwaukee sewers spilled 595 million wastewater gallons into local waterways.** To reduce the risk of sewage backups into basements during heavy rains, the Milwaukee Metropolitan Sewerage District allowed

595 million gallons of untreated wastewater to spill into local waterways. The district pumped wastewater from its main tunnel into disinfection chambers at the sewage treatment plant and mixed it with chlorine before discharging it into the Lake Michigan as an emergency measure.

Source: http://lacrossetribune.com/milwaukee-sewers-spilled-million-wastewater-gallons-into-local-waterways/article_411ead34-a715-11e2-9145-001a4bcf887a.html

18. *April 16, Corpus Christi Caller-Times* – (Texas) **Stage 3 water restrictions scheduled to start May 16 in Corpus Christi.** Corpus Christi water officials will set stricter water use regulations in place May 16 for residents and business owners as a result of minimal rain forecasts for the summer of 2013. The restrictions will be set in place about a month earlier than normal due to the impact of the drought facing the city as water officials consider incentives to residents and businesses for adopting rain water harvesting methods to reduce reliance on low local water sources.
