Food and Agriculture Sector

18. *June 11, Charlotte Observer* – (North Carolina) **34 sickened at Lincolnton plant.** Approximately 34 people were sickened by fumes June 10 at a R.W. Garcia Corporation plant in Lincolnton. Ten of those sickened had moderate to high levels of carbon monoxide poisoning.
Source: <http://www.charlotteobserver.com/2013/06/11/4098827/34-sickened-at-lincolnton-plant.html>
19. *June 10, Food Safety News*– (Florida) **Cherry tomatoes recalled in Florida for Salmonella contamination.** Florida-based Alderman Farms Sales Corporation issued a voluntary recall of 120 pints of its cherry tomatoes because they may be contaminated after the U.S. Food and Drug Administration discovered Salmonella in a sample of the product.
Source: http://www.foodsafetynews.com/2013/06/cherry-tomatoes-recalled-in-florida-for-salmonella-contamination/#.UbcHf_mkr44
20. *June 10, Food Safety News*– (National) **Townsend Farms hepatitis A outbreak hits 87.** According to the U.S. Centers for Disease Control and Prevention, around 87 people in eight States are now known to have been sickened with hepatitis A in the outbreak connected to Townsend Farms frozen berries sold at Costco and Harris Teeter stores.
Source: <http://www.foodsafetynews.com/2013/06/townsend-farms-hepatitis-a-outbreak-hits-87/#.UbcG7Pmkr44>

[\[Return to top\]](#)

Water and Wastewater Systems Sector

21. *June 11, Sanford Herald* – (Florida) **Weather causes wastewater spills; no public health risk, officials say.** Heavy rain June 7 led to 5,900 gallons of wastewater to spill from various manholes near downtown Sanford. Officials reported there was no health threat to the public.
Source: <http://www.sanfordherald.com/news/x1463427011/Weather-causes-wastewater-spills-no-public-health-risk-officials-say>
22. *June 11, Fayetteville Observer* – (North Carolina) **Tropical Storm Andrea causes wastewater spoils in Harnett County.** Heavy rainfall June 7 from Tropical Storm Andrea caused about 40,000 gallons of wastewater to enter various waterways in Harnett County, according to authorities.
Source: <http://www.fayobserver.com/articles/2013/06/11/1262623>

[\[Return to top\]](#)

Healthcare and Public Health Sector

23. *June 10, U.S. Department of Labor* – (Maryland) **Maryland's Integra Health Management cited by US Department of Labor's OSHA for workplace violence hazards following employee fatality.** Maryland-based Integra Health Management was cited by the U.S. Department of Labor's Occupational Safety and Health Administration for two violations and fined \$10,500 in proposed penalties stemming from a December 2012 incident when a service coordinator was fatally stabbed by a patient in front of the patient's home despite previously raised concerns about the patient by the employee.
Source: https://www.osha.gov/pls/oshaweb/owadisp.show_document?p_table=NEWS_RELEASES&p_id=24171
24. *June 10, Health IT Security* – (California) **PHI for nearly 4,500 patients found during Calif. drug bust.** Police in Oakland found a cache of stolen protected health information for roughly 4,500 patients from three different California hospitals during a drug bust. Authorities are investigating how the records were obtained while all three hospitals notified patients affected by the breach.
Source: <http://healthitsecurity.com/2013/06/10/phi-for-nearly-4500-patients-found-during-calif-drug-bust/>
25. *June 10, Wilkes-Barre Times Leader* – (Pennsylvania) **Broken pipe at Pa. assisted living requires evacuation.** Nanticoke Villa personal home care was evacuated June 9 and 63 residents were temporarily displaced after a broken water pipe shut down the building's electricity, fire alarm, and sprinkler system. Officials were assessing the damage while residents took shelter at the Greater Nanticoke Area High School.
Source: <http://www.firehouse.com/news/10957787/broken-pipe-at-pa-assisted-living-requires-evacuation>

Government Facilities Sector

26. *June 11, Atlanta Journal-Constitution* – (Georgia) **Bomb threat reported near the state Capitol.** A hoax bomb threat prompted the 2 hour evacuation of several State office buildings in Georgia June 11.
Source: <http://www.ajc.com/news/news/breaking-news/two-bomb-threats-reported-near-state-capitol/nYHf5/>
27. *June 11, Associated Press* – (Texas) **One wounded in shooting at Army post in Texas.** Fort Sam Houston in San Antonio was locked down for 2 hours June 10 after a soldier opened fire and wounded an instructor at the Fort Sam Houston's Army Medical Department Center and School. Officials took the suspect into custody after he surrendered and are investigating the incident.
Source: <http://www.officer.com/news/10958733/one-wounded-in-shooting-at-army-post-in-texas>
28. *June 10, KXLY 4 Spokane* – (Washington) **Wild fire still active after burning 1,000 acres.** Firefighters continue to battle the Mail Trail fire that ignited near Rogersburg and burned through 1,000 acres.
Source: <http://lcvalley.kxly.com/news/environment/97191-wild-fire-still-active-after-burning-1000-acres>
29. *June 10, Reno Gazette-Journal* – (Nevada) **Full containment expected on 100-acre Chariot Fire by noon today.** Firefighters expected full containment June 10 of the Chariot fire that ignited near Red Rock by a lightning strike June 9 and burned 100 acres.
Source: <http://www.rgj.com/article/20130610/NEWS06/130610007/Full-containment-expected-100-acre-Chariot-Fire-by-noon-today>
30. *June 9, Associated Press* – (Washington) **Suspected ricin letter to CIA discovered in Washington state, FBI says.** A letter returned as undeliverable to a Spokane post office was determined to be the fifth in a series of ricin-laced letters sent to government figures and agencies. The letter was addressed to the Central Intelligence Agency and was sent for further testing.
Source: <http://www.foxnews.com/us/2013/06/09/fbi-5th-spokane-letter-discovered-in-ricin-case/>

Emergency Services Sector

31. *June 10, U.S. Securities and Exchange Commission* – (Michigan) **SEC charges top officials at investment adviser in scheme to hide theft from pension fund of Detroit police and firefighters.** The U.S. Securities and Exchange Commission charged the

president and CEO of MayfieldGentry Realty Advisors, along with 4 other executives, for taking \$3.1 million from a pension fund that the company manages for Detroit's Police and Fire Retirement System without permission in order to open two strip malls in California. The firm agreed to settle charges by paying back the stolen funds.

Source: <https://www.sec.gov/news/press/2013/2013-106.htm>

32. *June 10, Contra Costa Times* – (California) **Daly City North County fire headquarters evacuated due to suspicious letter, later proved harmless.** North County Fire Authority's headquarters in Daly City was evacuated for roughly 2 hours June 10 after a letter was received in the mail containing a suspicious powder. Authorities determined the letter contained harmless wildflower seeds, likely crushed during transit.
Source: http://www.contracostatimes.com/portal/breaking-news/ci_23429122/letter-prompts-evacuation-at-daly-city-fire-department?_loopback=1
33. *June 9, WXYZ 7 Detroit* – (Michigan) **Plymouth fire station burns after truck catches on fire.** A fire that started in a truck inside the garage of the Plymouth fire department's station caused extensive damage to the building and destroyed at least one truck June 9. The fire department temporarily moved operations to another facility until repairs are made.
Source: <http://www.wxyz.com/dpp/news/plymouth-fire-station-burns-after-truck-fire>

[\[Return to top\]](#)

Information Technology Sector

34. *June 11, Help Net Security* – (International) **Washington Free Beacon website redirects to malware.** Invinia researchers found several pages on the Web site of the Washington Free Beacon were compromised and used to redirect users to a domain hosting the Fiesta exploit kit. The kit attempts to drop the ZeroAccess rootkit and the Internet Security Pro fake antivirus malware.
Source: https://www.net-security.org/malware_news.php?id=2516
35. *June 11, Help Net Security* – (International) **Researchers find self-propagating Zeus variant.** Researchers at Trend Micro discovered a variant of the Zeus/Zbot trojan that spreads via a malicious .pdf file and then copies itself onto any removable drives detected on an infected computer.
Source: https://www.net-security.org/malware_news.php?id=2515
36. *June 10, Netcraft* – (International) **Facebook Apps hosted by Heroku used for viral Twitter phishing attack.** Netcraft identified a Twitter phishing site being served from several Facebook Applications hosted on the Heroku service.
Source: <http://news.netcraft.com/archives/2013/06/10/facebook-apps-hosted-by-heroku-used-for-viral-twitter-phishing-attack.html>
37. *June 10, IDG News Service* – (International) **New backdoor malware 'KeyBoy' used in targeted attacks in Asia, researchers say.** Researchers at

Rapid7 discovered an attack campaign using a new malware dubbed KeyBoy to install information-stealing backdoors. The campaign targets users in several countries in Asia and is spread by spearphishing.

Source: <https://www.networkworld.com/news/2013/061013-new-backdoor-malware-39keyboy39-used-270656.html>

38. *June 10, Threatpost* – (International) **IRC botnet leveraging unpatched Plesk vulnerability.** Researchers found a botnet exploiting a vulnerability in the Plesk hosting control panel in unpatched systems. Some Apache server configurations were also reported to be vulnerable.

Source: <https://threatpost.com/irc-botnet-leveraging-unpatched-plesk-vulnerability/>

39. *June 10, Threatpost* – (International) **CERT warns of vulnerabilities in HP Insight Diagnostics.** The Computer Emergency Readiness Team (CERT) Program issued an alert over multiple vulnerabilities in HP's Insight Diagnostics server management tool that could be used to run code and take over infected computers.

Source: <https://threatpost.com/cert-warns-of-vulnerabilities-in-hp-insight-diagnostics/>

40. *June 10, Threatpost* – (International) **Apple Store vulnerable to XSS.** A cross-site scripting (XSS) vulnerability was found in the Apple Store Web site, which exposes visitors to possible attack. A proof-of-concept exploit code was released.

Source: <https://threatpost.com/apple-store-vulnerable-to-xss/>
