[\[Return to top\]](#)

Healthcare and Public Health Sector

27. *September 11, Morristown Daily Record* – (New Jersey) **Morris Twp. medical complex reopens 5 hours after evacuation.** The Medical Center in Morris Township was evacuated for 5 hours September 10 due to a noxious odor that caused 2 people to be transported to an area hospital.
Source: http://www.dailyrecord.com/article/20130910/NJNEWS/309100041/Doctor-s-office-Morris-Twp-evacuated?nclick_check=1
28. *September 10, Bloomberg News* – (National) **UnitedHealth recalls digital health record software.** An error that caused doctor's notes about patient prescriptions to drop out of their files prompted UnitedHealth Group Inc. to recall software used in emergency departments in over 20 States. Each of the 35 facilities impacted received a digital fix for a bug in the Picis ED PulseCheck software.
Source: <http://www.bloomberg.com/news/2013-09-10/unitedhealth-recalls-digital-health-record-software.html>
29. *September 10, Associated Press* – (Puerto Rico) **Bacteria outbreak forced closure of Puerto Rico hospital's intensive care unit, officials say.** The University of Puerto Rico Hospital's intensive care unit was closed following an outbreak of a resistant bacteria strain that affected at least 10 patients, officials stated September 10. Authorities are investigating the cause of death of at least 10 of the patients infected with the bacteria.
Source: http://www.washingtonpost.com/world/the_americas/official-bacteria-forces-closure-of-puerto-rico-hospital-intensive-care-unit/2013/09/10/18cc2dc8-1a5d-11e3-80ac-96205cacb45a_story.html

[\[Return to top\]](#)

Government Facilities Sector

30. *September 11, Associated Press* – (Washington) **Threat shuts down 6 southwest Washington schools.** A threat against Chief Umtuch Middle School September 10 prompted officials to close 5 public schools and a private school in Battle Ground

September 11.

Source: <http://www.thenewstribune.com/2013/09/11/2778417/5-battle-ground-schools-closed.html>

31. *September 11, Associated Press; Red Bluff Daily News* – (California) **RBFD personnel help fight Clover Fire.** Firefighters reached 40 percent containment of California's Clover Fire after burning 7,400 acres in Shasta County by September 10. Eighty structures were destroyed and evacuations were ordered for roughly 600 people.
Source: http://www.redbluffdailynews.com/business/ci_24068257/rbfd-personnel-help-fight-clover-fire
32. *September 11, KNTV 11 San Jose* – (California) **Mt. Diablo fire downgraded to 3,200 acres, 60 percent contained.** Crews reached 60 percent containment of California's Morgan Fire after burning through 3,200 acres near Mount Diablo State Park by September 10.
Source: <http://www.nbcbayarea.com/news/local/Mt-Diablo-Fire-Holds-Steady-at-37000-Acres-223114471.html>
33. *September 10, Orlando Sentinel* – (Florida) **Half a dozen students hurt when car hits school bus, troopers say.** An Evans High School bus was struck by a car September 10 in Pine Hills and left 6 students with minor injuries.
Source: <http://www.orlandosentinel.com/news/local/breakingnews/os-school-bus-crash-pinehills-20130910,0,1311870.story>
34. *September 10, KHQ 6 Spokane* – (Washington) **Beef tainted with plastic may have reached 14 north Idaho schools.** State officials notified 14 north Idaho school districts September 10 that they may have received ground beef tainted with small pieces of plastic after a recall was announced by California-based Central Valley Meat Co. The beef was processed March 30 and delivered between July 2 and September 6.
Source: <http://www.khq.com/story/23390068/beef-tainted-with-plastic-may-have-reached-14-north-idaho-schools>

[\[Return to top\]](#)

Emergency Services Sector

35. *September 10, Indianapolis Business Journal; Associated Press* – (Indiana) **Union calls for probe into unsafe operations center.** Indianapolis city and building inspectors shut down the emergency operations center September 9 after determining the building was unsafe when they discovered problems including a faulty basement sprinkler system and firewall.
Source: <http://www.ibj.com/indianapolis-public-safety-center-declared-unsafe/PARAMS/article/43433>

[\[Return to top\]](#)

Information Technology Sector

36. *September 11, Computerworld* – (International) **Buggy Microsoft update hamstrings Outlook 2013**. A non-security update for Microsoft Office 2013 was found to cause issues with Outlook 2013's folder pane on systems running Windows 7 and Windows 8.
Source: http://www.computerworld.com/s/article/9242322/Buggy_Microsoft_update_hamstrings_Outlook_2013
37. *September 11, Softpedia* – (International) **PoC and details published for Microsoft SharePoint Server 2013 flaw (MS13-067)**. A proof of concept (PoC) for a vulnerability in Microsoft SharePoint Server 2013 was released by Vulnerability Lab researchers following the publication of a patch that addresses the vulnerability. The vulnerability can be remotely exploited to inject malicious script and perform several malicious actions.
Source: <http://news.softpedia.com/news/POC-and-Details-Published-for-Microsoft-SharePoint-Sever-2013-Flaw-MS13-067-382088.shtml>
38. *September 11, Softpedia* – (International) **BlackBerry fixes vulnerabilities in Webkit, libfix, and Flash Player**. BlackBerry released patches that address several vulnerabilities affecting a variety of products including the Webkit browser engine, installations of Adobe Flash Player, and the libfix library. .
Source: <http://news.softpedia.com/news/BlackBerry-Fixes-Vulnerabilities-in-Webkit-libfix-and-Flash-Player-382177.shtml>
39. *September 11, Softpedia* – (International) **Multiplayer video game servers abused for DDoS attacks, experts warn**. Prolexic warned that cybercriminals are increasingly abusing multiplayer gaming servers to make their distributed denial of service (DDoS) attacks more efficient. Prolexic observed instances of gaming servers being used to launch DDoS attacks against financial services and online gaming targets.
Source: <http://news.softpedia.com/news/Multiplayer-Video-Game-Servers-Abused-for-DDOS-Attacks-Experts-Warn-382138.shtml>
40. *September 11, Softpedia* – (International) **Syrian Electronic Army hacks large number of FOX Twitter accounts via HootSuite**. Members of the Syrian Electronic Army hacktivist group compromised dozens of Twitter accounts belonging to FOX after they gained access to a HootSuite account that links the profiles.
Source: <http://news.softpedia.com/news/Syrian-Electronic-Army-Hacks-Large-Number-of-FOX-Twitter-Accounts-via-HootSuite-381970.shtml>
41. *September 10, SC Magazine* – (International) **Saboteurs target OAuth protocol to compromise HootSuite users**. Around 7,000 HootSuite accounts were compromised and used to send spam through Twitter after attackers targeted a third-party application that uses OAuth to gain access.
Source: <http://www.scmagazine.com/saboteurs-target-oauth-protocol-to-compromise-hootsuite-users/article/311109/>

42. *September 10, Help Net Security* – (International) **Microsoft releases 13 bulletins, axes .NET patch.** Microsoft released its September Patch Tuesday round of patches, which included 13 bulletins that address issues in Microsoft Office, Windows, SharePoint Server, and Internet Explorer.
Source: <http://www.net-security.org/secworld.php?id=15547>
43. *September 10, Help Net Security* – (International) **C&C PHP script for staging DDoS attacks sold on underground forums.** A security researcher at Webroot discovered a command and control (C&C) PHP script designed to integrate multiple compromised servers for use in distributed denial of service (DDoS) attacks for sale on an underweb forum. The script appears to be in early stages of development and has a current listed price at \$800.
