Energy Sector

1. *April 7, Bristol Herald Courier* – (Virginia) **From coal to natural gas.** The process to convert two units of the Clinch River Power Plant in Russell County from coal-fired to natural gas began after authorities determined the two units will burn coal through the summer of 2014 before one unit is taken offline for conversion in the fall of 2015, while the second will be converted in early 2016. Company officials stated that both units will be fully converted by spring of 2016.
