Transportation Systems Sector

4. *June 13, Associated Press* – (New Jersey) **Police identify driver killed in crash that closed GWB.** The eastbound upper level lanes of the George Washington Bridge into New York was closed for several hours June 12 after two semi-trucks crashed on the bridge in Fort Lee, New Jersey, killing one driver and sending the other to an area hospital for injuries.
Source: <http://pix11.com/2014/06/13/police-identify-driver-killed-in-crash-that-closed-gwb/>
5. *June 12, KPHO 5 Phoenix* – (Arizona) **EB Loop 101 reopens after rollover crash in north Phoenix.** The Arizona Department of Transportation closed a portion of Loop 101 Pima Freeway eastbound in north Phoenix for nearly 4 hours June 12 after a 3-vehicle crash that left several people injured.
Source: <http://www.kpho.com/story/25760331/crash-closes-eb-101-at-tatum-road-in-north-phoenix>
6. *June 12, Associated Press* – (Arizona) **I-8 near Yuma partially open after vehicle crash.** Eastbound lanes of Interstate 8 near Yuma were reopened after several hours June 12 after a semi-truck carrying corrosive liquid caught fire sending one person to an area hospital with injuries. Westbound lanes remained closed while crews worked to clear the scene.
Source: <http://www.myfoxphoenix.com/story/25762593/i-8-near-yuma-partially-open-after-vehicle-crash>
7. *June 12, Riverside Press-Enterprise* – (California) **Riverside: Four-vehicle crash closes Highway 91 lanes.** The California Highway Patrol reported that 3 eastbound lanes of the 91 Freeway in Riverside were closed for about 2 hours June 12 due to a 4-vehicle crash that left several people injured.

Food and Agriculture Sector

8. *June 12, KSL 5 Salt Lake City* – (Utah) **\$10M hay fire 'going to burn for a long time,' fire marshal says.** A fire broke out June 11 at a Bailey Farms International hay plant in Tremonton and spread to a propane tank outside the structure, causing an explosion that ignited piles of hay. Fire officials stated that the fire caused between \$8 million and \$10 million in damage and that it is unlikely a cause will be determined due to size and intensity of the blaze.
Source: <http://www.ksl.com/?nid=148&sid=30280899>
9. *June 12, U.S. Environmental Protection Agency* – (Oregon) **Wilco-Winfield, LLC, Oregon pesticide re-packager, settles with EPA for pesticide violations at its Mt. Angel facility.** Wilco-Winfield, LLC entered into an agreement with the U.S. Environmental Protection Agency (EPA) and agreed to pay a \$15,360 fine June 12 to settle alleged violations of federal requirements that mandate an adequate pesticide containment pad at the company's Mt. Angel facility. The action was taken following a February 2013 inspection by the Oregon Department of Agriculture that was turned over to the EPA for review.

Information Technology Sector

21. *June 13, The Register* – (International) **Entirely new trojan quietly wheeled into black hat forums.** A researcher from RSA reportedly discovered a new trojan, Pandemiya, which contains about 25,000 lines of fresh code and has the ability to steal data from forms, take screen shots to send back to the botmasters who deploy it, and create fake web pages. Pandemiya can be removed by tweaking registry and command line action.
Source: http://www.theregister.co.uk/2014/06/13/pricey_ground_up_built_malware_constantly_infects_everything/
22. *June 13, Vallejo Times Herald* – (California; Utah) **San Jose: Utah woman indicted in embezzlement of \$1.34 million from Mountain View software firm.** A federal grand jury indicted a former Symantec Corp. employee June 11 on 26 charges of wire fraud and 10 counts of money laundering for allegedly embezzling \$1.34 million in funds from the California-based company while working at its Lindon, Utah office between January 2010 and May 2012. The former employee allegedly charged unauthorized personal expenses to company payment cards and made unapproved financial transfers to a shell company used to reallocate funds into her personal bank account.
Source: http://www.timesheraldonline.com/news/ci_25956029/san-jose-utah-woman-indicted-embezzlement-1-34
23. *June 12, Securityweek* – (International) **Cisco fixes XSS vulnerability in AsyncOS management interface.** Cisco advised customers to update their AsyncOS installations in order to address a cross-site scripting (XSS) vulnerability impacting the Web management interface of the operating system. The flaw affects Cisco Email Security Appliance (ESA) 8.0 and earlier, Cisco Web Security Appliance (WSA) 8.0 and earlier, as well as Content Security Management Appliance (SMA) 8.3 and earlier.
Source: <http://www.securityweek.com/cisco-fixes-xss-vulnerability-asyncos-management-interface>
24. *June 12, Securityweek* – (International) **Cybercriminals targeting cloud-based PoS systems via browser attacks.** IntelCrawler researchers dubbed a form of malware, POSCLOUD, which targets vulnerabilities in major Web browsers to compromise cloud-based PoS software typically used by grocery stores, retailers, and other small businesses. The malware relies on keylogging and screenshots to steal personal information and financial data.
Source: <http://www.securityweek.com/attackers-targeting-cloud-based-pos-systems-browser-attacks>
