Energy Sector

1. *May 8, St. Louis Post-Dispatch* – (Illinois) **Power restored in Metro East in wake of Saturday thunderstorms.** Ameren Corporation crews worked to restore power May 8 to about 360 people in Metro East who remained without service following severe thunderstorms May 7 that moved across Illinois and knocked out power to approximately 30,000 customers.
Source: http://www.stltoday.com/news/local/metro/thousands-without-power-in-metro-east-southern-illinois-in-wake/article_f4045384-3438-5176-b2b6-daf4ce56ee42.html
2. *May 7, Wisconsin State Journal* – (Wisconsin) **Governor declares energy emergency after pipeline temporarily shuts down.** The governor of Wisconsin declared a statewide energy emergency May 6 after a portion of the West Shore Pipe Line Co. pipeline between Milwaukee and Green Bay was shut down indefinitely when an anomaly was detected. The executive order waives various Federal and State limitations on the number of hours petroleum carrier drivers can work weekly, and was declared in order to circumvent potential gasoline and diesel shortages in the State while authorities continue to investigate and test the pipeline.

3. *May 9, Reuters* – (International) **Israel approves extradition to U.S. of two securities fraud suspects.** Officials from Israel’s Ministry of Justice approved May 8 the extradition of two men to the U.S. indicted in the U.S. District Court for the Southern District of New York for their roles in a “pump-and-dump” stock manipulation scheme where the men and co-conspirators acquired shares in thinly traded companies, sent millions of spam emails inducing investors to purchase the stocks in order to artificially inflate the price, then sold off their holdings from 2011 – 2015. Authorities stated that

charges were added to the indictment in March after discovering that the duo hacked into a dozen companies' networks and stole the personal information of more than 100 million people.

6. *May 8, Salt Lake Tribune* – (Utah) **TRAX train derailment injures three.** The Transit Express (TRAX) Green Line Train traveling southbound from Central Point Station derailed in Salt Lake City May 8, injuring three people and prompting the line to shut down until further notice. The cause of the derailment remains under investigation and a bus bridge was established to help transport passengers to stops.
Source: <http://www.sltrib.com/home/3868763-155/utah-trax-train-derails-causes-minor>
7. *May 8, WBZ 4 Boston* – (Massachusetts) **South Boston T station reopens after man hit by train.** The Broadway Massachusetts Bay Transportation Authority (MBTA) station was reopened May 8 after a man trespassing on the southbound tracks was struck by a Red Line train, prompting the station to close for more than 3 hours. The man was sent to an area hospital with minor injuries and shuttle buses were running to transport passengers from Park Street to JFK stations.
Source: <http://boston.cbslocal.com/2016/05/08/red-line-delays-broadway-mbta-station-south-boston/>
8. *May 8, KBTX 3 Bryan/College Station* – (Texas) **Drivers identified in double fatality crash on Highway 6; officer also injured.** All lanes of Highway 6 in College Station, Texas, were reopened May 8 following two related accidents that sent a police officer and at least two people to area hospitals with minor injuries, killed two others, and prompted the roadway to be closed for more than 9 hours.
Source: <http://www.kbtx.com/content/news/Two-dead-College-Station-officer-injured-in-multiple-collisions-on-Highway-6--378548925.html>

9. *May 7, Lawrence Journal-World* – (Kansas) **U.S. Highway 24 closed following motorcycle accident.** U.S. Highway 24 in Jefferson County, Kansas, was closed for more than 2 hours May 7 following a three-vehicle accident involving two motorcycles that sent two drivers to area hospitals with injuries.
Source: <http://m.ljworld.com/news/2016/may/07/us-highway-24-closed-following-accident/?templates=mobile>
10. *May 6, USA Today* – (Washington, D.C.) **Major repairs and major delays for DC Metro to begin in June.** Officials from the Washington Metropolitan Area Transit Authority (WMATA) announced May 6 a maintenance program for the city's Metro system called Safe Tracks which will shut down sections of the tracks in order to replace 48,000 wooden ties, 36,000 track fasteners, and clear 87,000 linear feet of drains at 15 locations along the system following incidents of tunnel fires and emergency closures of the system in January 2015 and March 2016. Repairs are scheduled to begin in June and last until 2017.

12. *May 9, U.S. Department of Agriculture* – (Florida; New Jersey) **La Autentica Foods, LLC firm recalls meat tamale products due to possible Listeria contamination.** La Autentica Foods, LLC issued a recall May 7 for approximately 117,350 pounds of its meat tamale products sold in 5 variations due to a potential *Listeria monocytogenes* contamination discovered during a Federal recall of a frozen corn ingredient contaminated with *Listeria*. There have been no confirmed reports of adverse reactions in connection with the products which were distributed to retail and restaurant locations in Florida and New Jersey.
Source: <http://www.fsis.usda.gov/wps/portal/fsis/topics/recalls-and-public-health-alerts/recall-case-archive/archive/2016/recall-037-2016-release>
13. *May 9, U.S. Department of Agriculture* – (Idaho; Washington) **Washington firm recalls beef jerky products that may be undercooked.** 4 Frenz, LLC issued a recall May 7 for approximately 497 pounds of its beef jerky products sold in 5 variations due

- to under-processing and potential survival of bacterial pathogens in the products following a comprehensive Federal Food Safety Assessment (FSA) inspection at the Clarkston, Washington facility. There have been no confirmed reports of adverse reactions and the products were shipped to retail locations in Idaho and Washington. Source: <http://www.fsis.usda.gov/wps/portal/fsis/topics/recalls-and-public-health-alerts/recall-case-archive/archive/2016/recall-038-2016-release>
14. *May 7, U.S. Food and Drug Administration* – (National) **Tasty Toppings recalls Dorothy Lynch Home Style Dressing.** Tasty Toppings, Inc., issued a voluntary recall May 6 for its Dorothy Lynch Home Style Dressing products due to a product quality issue with an ingredient used in the products after testing revealed the presence of lactobacillus. Officials stated that the products were distributed to six States and pose no health risk to consumers. Source: <http://www.fda.gov/Safety/Recalls/ucm499777.htm>
 15. *May 7, U.S. Food and Drug Administration* – (International) **Stahlbush Island Farms, Inc. recalls IQF Green Beans because of possible health risk.** Stahlbush Island Farms, Inc., issued a voluntary recall May 6 for its Stahlbush IQF Green Bean products sold in 10-ounce packages due to a potential *Listeria monocytogenes* contamination after the supplier notified the company that the green beans it provided the firm had been recalled. No illnesses have been reported and the products were distributed nationwide and in Canada. Source: <http://www.fda.gov/Safety/Recalls/ucm499775.htm>
 16. *May 7, U.S. Food and Drug Administration* – (National) **Voluntary recall on Pulmuone noodles.** Pulmuone Foods USA issued a voluntary recall May 6 for its Pulmuone Korean Noodles in a Savory Black Bean Sauce, Pulmuone Noodles with Fire-Roasted Black Bean Sauce, and Pulmuone Noodles with Beijing Style Black Bean Sauce products due to undeclared milk. No illnesses have been reported. Source: <http://www.fda.gov/Safety/Recalls/ucm499762.htm>
 17. *May 6, U.S. Food and Drug Administration* – (National) **Wheatberry Salad.** Publix Super Markets Inc., issued a voluntary recall May 5 for its Wheatberry Salad products due to a potential *Listeria monocytogenes* contamination following a nationwide recall of a sunflower kernel ingredient used in the salad products. Officials stated the product is no longer available on store shelves and no illnesses have been reported in connection with the products which were sold at all Publix retail locations in six States. Source: <http://www.fda.gov/Safety/Recalls/ucm499717.htm>
 18. *May 6, U.S. Food and Drug Administration* – (National) **Schulze and Burch Biscuit Co. recalls various Millville Protein Chewy Bars products because of possible health risk.** Schulze and Burch Biscuit Co., issued a voluntary recall May 5 for a variety of its Millville Protein Chewy Bars products due to a potential *Listeria monocytogenes* contamination after the company was notified by its sunflower seed supplier that the seeds may be contaminated with *Listeria*. The products were distributed through Aldi stores nationwide.

Information Technology Sector

26. *May 9, SecurityWeek* – (International) **Over two dozen flaws found in Aruba products.** Aruba Networks patched some of the 26 security flaws discovered by a Google security engineer, and is working to patch the remaining vulnerabilities which impact all versions of ArubaOS, AirWave Management Platform 8.x versions prior to 8.2, and Aruba Instant access points (IAP) prior to 4.1.3.0 and 4.2.3.1. Some of the vulnerabilities discovered include the transmission of login credentials via Hypertext Transfer Protocol (HTTP), default accounts, remote code execution flaws, firmware-related weaknesses, information disclosure issues, and Protocol Application Programming Interface (PAPI)-related security bugs.

Source: <http://www.securityweek.com/over-two-dozen-flaws-found-aruba-products>

27. *May 9, Softpedia* – (International) **Google suffers minor data breach via third-party benefits vendor.** Google notified an unknown number of employees following a data breach that occurred when a manager of a third-party benefits vendor sent a file containing the names and Social Security numbers of an undisclosed number of Google employees to the wrong person. The individual who received the data deleted it from his computer and notified Google's vendor of the incident.

Source: <http://news.softpedia.com/news/google-suffers-minor-data-breach-via-third-party-benefits-vendor-503839.shtml>

28. *May 8, Softpedia* – (International) **Bucbi ransomware makes a comeback after two years.** Researchers at Palo Alto Networks reported that a cyber-crime group is utilizing

a re-tooled version of the Bucbi ransomware that does not rely on social engineering tactics and works without needing to connect to an online command and control (C&C) server, uses a different installation routine, and also employs a different ransom note. The group uses brute-force attacks against corporate networks running Internet-available Remote Desktop Protocol (RDP) servers.

Source: <http://news.softpedia.com/news/bucbi-ransomware-makes-a-comeback-after-two-years-503821.shtml>

29. *May 8, Softpedia* – (International) **190 Android apps infected with malware discovered on the Google Play Store.** Google removed 190 applications infected with malware from its Google Play Store after it was notified by Dr. Web security researchers who discovered that the malware’s mode of operation, Android.Click, waits for 6 hours after it is installed before forcibly loading a Uniform Resource Locator (URL) in the user’s browser, prompting the user back to the Google Play Store to download a second app.

Source: <http://news.softpedia.com/news/190-android-apps-infected-with-malware-discovered-on-the-google-play-store-503824.shtml>

30. *May 7, Softpedia* – (International) **WordPress 4.5.2 released to fix XSS and SOME security bugs.** The WordPress project released version 4.5.2 of its open-source platform addressing two security issues in two libraries packed with the content management system (CMS) after Cure53 researchers found a Same-Origin Method Execution (SOME) vulnerability in the Plupload library, which allows attackers to perform unintended actions on a Web site on behalf of victims, and a cross-site scripting (XSS) issue in the MediaElement.js library.
