Transportation Systems Sector

4. *July 12, WFTV 9 Orlando* – (Florida) **Roadway reopened after overturned ketchup truck snarls I-95 traffic in Malabar.** Interstate 95 in Malabar, Florida was closed for more than 2 hours while crews worked to clear the wreckage from a semi-truck that overturned and blocked all traffic lanes July 11.
Source: http://www.wftv.com/news/local/roadway-reopened-after-overturned-ketchup-truck-snarls-i-95-traffic-in-malabar/397057453

5. *July 11, KCNC 4 Denver* – (Colorado) **Cold Springs fire causes road, highway closures.** The Boulder Office of Emergency Management closed Boulder Canyon to all vehicle traffic for several hours July 11 while crews worked to contain the Cold Springs Fire. Officials also closed Highway 119 from Boulder to Nederland and closed south of Nederland to Highway 72.
Source: http://denver.cbslocal.com/2016/07/11/cold-springs-fire-causes-road-highway-closures/

6. *July 11, KEZI 9 Eugene* – (Oregon) **Lane closure expected on Highway 101.** Officials closed U.S. Highway 101 in Yachats, Oregon for more than 2 hours July 11 after a fully loaded chip truck drove over the embankment on the Highway.
Source: http://www.kezi.com/news/Crash_Near_Yachats_Shuts_Down_Highway_.html

7. *July 11, Associated Press* – (Arkansas) **Arkansas road work to force lane closures on Highway 10.** The Arkansas Highway and Transportation Department announced July 11 that Highway 10 in Little Rock would be closed July 11 to August 1 for several hours while crews work to seal the highway with liquid asphalt and gravel.
Source: http://www.thv11.com/news/local/arkansas-road-work-to-force-lane-closures-on-highway-10/269975070

8. *July 10, ABC News* – (Oklahoma) **Passenger on diverted Delta flight had elevated carbon monoxide levels.** Delta Flight 1817 from Atlanta to Denver was forced to make an emergency landing in Tulsa, Oklahoma July 10 after 12 passengers became sick due to elevated levels of carbon monoxide in their bodies. Officials re-screened passengers and placed them on another Denver-bound plane.

Information Technology Sector

20. *July 12, SecurityWeek* – (International) **Code execution flaw plagues Intel Graphics Driver.** Security researchers from Cisco Talos discovered a local code execution vulnerability in Intel HD Graphics Windows Kernel Mode Driver version 10.18.14.4264 that could allow an attacker to run arbitrary code on a victims' system or cause denial-of-service (DoS) by sending a specially crafted D3DKMTEscape request to the Intel DH Graphics drivers. Microsoft removed the NTVDM subsystem from its Windows 8 to mitigate the attack, but researchers stated the mitigations were not foolproof.
Source: http://www.securityweek.com/code-execution-flaw-plagues-intel-graphics-driver

21. *July 11, Softpedia* – (International) **Website takeover issue fixed in WordPress' most popular plugin.** A security researcher reported that the All in One SEO Pack WordPress plugin was plagued with a vulnerability that could allow attackers to store malicious code in the Web site's admin panel which could potentially enable attackers to control the Web site.
Source: http://news.softpedia.com/news/website-takeover-issue-fixed-in-wordpress-most-popular-plugin-506209.shtml

22. *July 11, SecurityWeek* – (International) **DoS flaw affects Symantec endpoint products.** Symantec released a patch that addressed a denial-of-service (DoS) vulnerability that affected its Norton Security's Portable Executable file scanning functionality as well as its Endpoint Protection products after a security researcher from Cisco Talos found an attacker could exploit the vulnerability by sending a victim a crafted file with a large SizeOfRawData field in a section header due to a flaw in the Client Intrusion Detection System (CIDS) driver, which can cause a system to crash when interacted with a specially-crafted portable executable (PE) file.
Source: http://www.securityweek.com/dos-flaw-affects-symantec-endpoint-products

Communications Sector

23. *July 11, SecurityWeek* – (International) **Backdoored Pokemon Go app infects Android devices.** SimilarWeb data and Proofpoint revealed that attackers were using a malicious version of the popular mobile gaming app, Pokemon GO via third-party portals to disseminate a remote access tool (RAT), dubbed DroidJack, to add Android application package (APK) files and allow attackers to gain full control over the Android users' mobile devices. DroidJack could allow an attacker to read and exit text messages, make phone calls, record audio, modify contacts, and connect to Wi Fi, among other actions.
Source: http://www.securityweek.com/backdoored-pokemon-go-app-infects-android-devices

Commercial Facilities Sector

24. *July 12, Bay Area News Group* – (California) **Fremont: Boy injured in 2-alarm apartment fire.** A Fremont apartment complex sustained about $500,000 in damages July 11 after a two-alarm fire began in the kitchen on a first-floor apartment unit, injuring one resident and displacing eight others. Fire crews extinguished the blaze.
